

Ensure Secure Sharing & Protect your Revenue Streams

Locklizard's document security software prevents unauthorized document sharing and piracy. It controls access to and use of your information both inside and outside your organization, so you can securely, and cost effectively, distribute and manage your digital content.

1 Stop Unauthorized Access

Documents are locked to specific users and their devices and will not work if users distribute them to others. You can also enforce the location from where they can be used (e.g. office only).

2 Control Document Usage

Decide whether authorized users can print your documents and if so how many times. Stop screen grabbing, and change access controls even after distribution.

3 Expire & Revoke Documents

Set documents to automatically expire after a given no. of views, prints, days, or on a fixed date. Instantly revoke access to documents at any stage no matter where they reside.

4 Log Document Activity

See when users open and print your documents. Apply dynamic watermarks displaying user information to viewed and/or printed information to discourage sharing of printed copies.

Locklizard document security software is used worldwide by information publishers either selling content or ensuring compliance, corporates protecting trade secrets, or providing a controlled method to share their information, and government agencies concerned over potential misuse of their information.

So what do companies use Locklizard for?

Protection from piracy & revenue loss

The drivers that made us go to DRM for our electronic courses

NetMasterClass develops on-line training courses which cost thousands to produce. Two days after one course was released they found it offered for sale on e-bay. That blew away the costs of development and sales going forwards in one single hit. They had to take positive steps to protect their IPR in order to stay in business.

“The return on investment to our company has been immediately evident. We are now creating new products for our electronic portfolio without fear of seeing them being distributed through unauthorized channels.”

Cost and time savings

A greener and more cost effective means of document distribution

For 25 years TSD policy was to send out paper based manuals for its product lines to new customers. Manuals could take 7-10 business days from ordering to reach the customer, and could be copied and distributed outside of their control. They needed a solution so customers received instant gratification upon purchase and achieve a 'greener' result.

“Using Safeguard Enterprise PDF security has meant the elimination of many man hours, printing resources and postage. We currently estimate that costs have been cut by over 50%.”

Secure sharing & Trade secret protection

Preventing information leakage

CCS Companies needed to protect commercial proprietary documents which they have to share with clients but also keep secret. They often have to provide specific individuals with temporary copies of confidential documents for their review. It is essential that they are able to do this without them being copied or forwarded to unauthorized users.

“Proprietary documents are not misplaced, and cannot be forwarded to the wrong individuals. You cannot place a value on that.”

Start protecting your IPR now. Call us on 800 707 4492 (US) or +44 (0) 1292 430290 (UK & Europe) or visit www.locklizard.com to arrange a free 15 day evaluation and/or an online demo.
