

The Vickie Milazzo Institute case study

Elearning Security: Enforcing copyright over electronic training materials and ensuring out-of-date content is no longer used

Summary

The Vickie Milazzo Institute wanted to securely distribute their online educational programs, and expire content when it is out of date. They wanted to be able to control the number of prints allowed and in some cases prevent printing altogether.

"LockLizard Safeguard has helped enforce our copyrights and limited file sharing between customers and non-customers. The implementation was smooth and painless and the product is easy to use. Technical support has been prompt and helpful in their responses."

About the Vickie Milazzo Institute

The Vickie Milazzo Institute (VMI) has been the authoritative resource center, since 1982, for nurses wishing to explore the dynamic field of legal nurse consulting. As the leading educator in this field, VMI created the first national certification scheme for legal nurse consultants. Nationally recognized, the CLNC® Certification is the official certification award of the National Alliance of Certified Legal Nurse Consultants (NACLNC®). VMI is dedicated to revolutionising nursing careers on RN at a time.

Maintaining our copyright

Offering Internet distribution for our online educational programs we knew that we would have to take positive steps to maintain our copyright, and retain control over our content. This meant making sure that we could limit file sharing between customers and non-customers, expire documents to prevent them going out of date, and limit or prevent printing. This is also a matter of quality control to prevent others from trying to misuse our documentation.

What made you choose LockLizard Safeguard?

It was user friendly, easy to implement, and included all the components we were looking for in a PDF security solution. We use the following features:

- document expiration (to expire old content);
- enhanced screen grabber protection;
- limited printing;
- the 'publication' feature to group together course documents.

We have been able to secure all of our textbooks and forms for distribution.

Going live

Our implementation was smooth and painless. We did use LockLizard technical support during setup and found them to be both prompt and helpful.

About Lizard Safeguard PDF Security

Lizard Safeguard PDF Security provides complete PDF document security with DRM controls and US Government strength, AES 256 bit, encryption. It protects PDF documents from copying, modifying, saving and distribution. In addition the IPR owner can control whether users can print protected PDF documents, and if so, how many times. Controls check how documents are used, by whom, for how long, and what can be done with them. Pricing starts from \$2495 for a subscription license.
